

Handcrafted in the USA

Perfectly transfers birds & meat from
grills, ovens, roasters, smokers

Lifts
up to
30 lbs!

One
easy
motion

Pan to Platter The perfect poultry lifter & transporter

Hook

Lift

Release

Directions

- Slide pointed end into cavity of bird as far as possible.
- Lift the bird straight up without tilting the bird forward. The pointed tip embeds into the birds breast bone and prevents the bird from sliding off or rotating.
- Tilt unstuffed birds towards you to drain the cavity and capture the extra drippings for making your favorite gravy.
- Place the bird on a platter or carving board. Press lifter down slightly to release the hook and slide out of cavity.

Features

- Works great for all types of poultry (stuffed or unstuffed).
- Also for large cuts of meat: hams, roasts, ribs, brisket.
- Lifts up to 30 lbs with ease & doesn't pierce the meat.
- Compact design fits into most kitchen utensil draws.
- Made from high grade stainless steel & hardwood handle.
- Hand wash or top rack of dishwasher.
- Our Sausage-Pecan stuffing recipe printed inside of card.
